

KIDDO CODER

Futureproof your children with
the power of coding & robotics

EXPLORE TECHNOLOGY

PROGRAMME

1

Term 1

Botley the coding robot

Botley is a screen-free robot that can be programmed with a remote control. Learn how codes function and combine to perform simple tasks and achieve different objectives.

2

Term 2-4

Scratch JR (Coding)

Coding is the new literacy! With Scratch Jr, young children can program their own interactive stories and games. In the process, they learn to solve problems, design projects, and express themselves creatively.

3

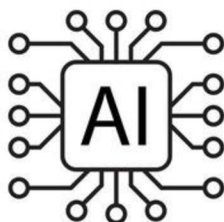

Term 5-10

LEGO Robotics

LEGO® Education SPIKE™ Essential and LEGO® Wedo engages students in hands-on investigation of STEAM concepts while contributing literacy, math, and social emotional development.

4

Term 11

Artificial Intelligence (Coding)

Code.org, mBlock, and Machine Learning for Kids (MLFK) are platforms that allow children to grasp basic concept of AI and coding through various projects.
