"Creativity is inventing, experimenting, growing, taking risks, breaking rules, making mistakes, and having fun." -Mary Lou Cook

About LITTLE DJOE ARTWORLD (LDA)

LITTLE DJOE ARTWORLD (LDA) is a premier creative establishment founded by Teacher Rudy Djoë, affectionately known as Teacher Djoë or Jojo among his students. With over ten years of experience in developing art curricula and instructing at kindergartens and childcare centers, Teacher Djoë's dedication to fostering a love for art in children is the foundation of LDA. Our aim is to enrich children's lives through the transformative power of art.

Art Program Philosophy

At LDA, we nurture children's creativity and self-expression through art. Our thoughtfully designed programs encourage exploration and imagination, paving the way for self-discovery. Our team of experienced artists and educators conducts annual reviews to ensure consistent quality and effectiveness.

Core Principles:

- **Value Through Art:** We enrich children's lives by viewing art-making as an adventure.
- **Every Child is an Artist:** Inspired by Picasso, we empower children to ask questions and express themselves visually, recognizing art as a key form of communication.
- **Quality Relationships:** We prioritize strong connections with students, partner schools, and parents, upholding high standards of teaching excellence.

Teaching Style in Three Words:

- **FUN:** Our educators foster a dynamic and enjoyable environment that inspires creativity.
- **FLEXIBLE:** We support individual interpretation and exploration, valuing each child's unique perspective.
- **FACILITATIVE:** We guide students while actively engaging in their artistic processes, promoting collaboration and creativity.

Hello Parents & Students, I'm Teacher Jojo! I look forward to share my art knowledge to the students.
